Currently Tech 9 is mostly used. Tech 11 has been reached. Very expensive

Aligned worlds are aggressively pursuing expansion.

No other sentient life forms found yet. As pointed out there are non-sentient alien creatures through out the systems

Independent worlds and aligned worlds cooperate fully with regard to legal matters in most cases

Axis worlds do not generally trade with outsiders. They will assist injured or stranded citizes of other states. The will also allow at times extradtion of petty criminals, but only to unaligned worlds. At Axis worlds, violent or dangrous criminals are uslaly executed. Nobililty is imprisoned or ransomed back. Slave labor is used at their mining outposts.
